EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Scott Elchert on 1/31/2005.

1. The application has been amended as follows:

IN THE CLAIMS:

In Claim 5, line 4, deleted ~~[[a]]~~.

IN THE DRAWINGS:

The following changes to the drawings have been approved by the examiner and agreed upon by applicant:

Figure 5 should be designated as "Prior Art" or " BACKGROUND ART" because only that which is old is illustrated. See MPEP § 608.02(g). In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Reasons for Allowance

2. Claims 1-12 are allowed over prior art of record.

The following is an examiner's statement of reasons for allowance:

The prior art of record, Courtois et al. (US 4,979,168) and Lee (US 6,529,520), either singularly or in combination, fails to disclose the method of random access by a user to an ALOHA type shared resource in which certain time ranges of access to the resources are booked excluding the user from access. The inventive method step includes "temporarily modifying at least one first random variable into a modified second random variable including a same mean and greater variance as the at least on first random variable". It renders claims 1-12 allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Afsar M Qureshi whose telephone number is (571) 272 3178.
